Comprehensive Health Integration Framework Scoring Tracker

INSTRUCTIONS

■ Document the results of your self-assessment for each domain and subdomain.

■ For each domain, mark the stage completed (0-3) based on whether all the criteria for that stage have been achieved. If more than one stage has been completed, mark the furthest stage that has been fully achieved. If you have not yet met all Stage 1 criteria in a domain, mark Stage 0.

■ In the Progress column, you can indicate partial advancement toward the next stage after completing a stage within a domain. This allows your program to reflect progress toward the next stage (also known as goal stage). To do this, indicate Early (E) if less than 50% of the criteria for that stage have been achieved, or Late (L) if 50% or more have been achieved. For example, if less than 50% of the criteria for Stage 2 have been completed, mark it as 2E; if 50% or more have been completed, mark it as 2L. Progress tracking is flexible and can be adjusted at your program's discretion.

■ To calculate the total integration score for the program:
  - The program/practice must meet all the criteria for the same stage in at least six of the eight domains.
  - It must be no more than one stage lower in the other two domains.
  - For example, if six domains achieve Stage 2 and the other two domains are at Stage 1, the program's overall integration level is Stage 2.
