<i>Note that states may fall into multiple categories</i>	
Established the CCBHC model through Section 223 demonstration	States that are current or former participants in the Section 223 Medicaid demonstration enacted under the Protecting Access to Medicare Act of 2014 and subsequent expansions.
Independent State CCBHC Program Outside of Section 223 Demonstration	States that have implemented CCBHCs through a different Medicaid mechanism such as a state plan amendment, directed payment program, or other.
State Legislative or Other Action	States that have enacted state legislation, taken significant action to plan their implementation of the CCBHC model, or have appropriated state funds for planning or state CCBHC grants.
Received CCBHC Planning Grant (2023)	States that received a SAMHSA CCBHC Planning Grant in 2023 for the purposes of planning their participation in the Section 223 Medicaid demonstration.
Received CCBHC Planning Grant (2016)	States that received a SAMHSA CCBHC Planning Grant in 2016 for the purposes of planning their participation in the Section 223 Medicaid demonstration.
Clinic Grantees Only	States that may be considering the CCBHC model but have not launched a Medicaid implementation effort. Individual SAMHSA CCBHC grantees are active in these states.

CCBHC Type	
State-Certified or Demonstration CCBHCs	Clinics that are either participating in their states' Section 223 Medicaid demonstrations or have been certified by their states as CCBHCs under a CMS-approved Medicaid CCBHC initiative.
CCBHC Grants	Number of active SAMHSA CCBHC grants. Individual clinics may have more than one grant. Grant numbers currently include only federal grants; state level grants will be added in a future update.
